Dear John,

We're excited to announce our newly designed office website. [The address](#) is the same, but we've changed not only the look but also the content. Take a minute to visit the new website. We're working on a "Treasure Hunt" that we'll announce here soon. The winners will be receiving gift certificates to a couple of great Racine eateries and/or watering holes!

Also, you can follow us on twitter by following [this link](#). We announce news, links to articles and other office events via Twitter first.

Now is a great time to check out our websites, www.warreneyecarecenter.com and www.bettervisioncorrection.com are both sites that we have created and maintain.

Dr. Warren has been busy with his blog also, you can [access it directly here](#).

Back To School, Already/Again

With summer taking its own sweet time to get here, its hard to believe that its almost back to school time again, but its not that far away. My wife goes back to school (as a teacher) the 3rd week in August and the kids start soon after that.

That means that the hectic "getting it all done in a week" after procrastinating for a month or so, isn't all that far away. As always, an eye exam before school starts should be on every parent's check list of things to complete. Because of this, late August and early September tend to be tough times to get late afternoon and evening appointments for your children due to increased demand.

Beat the rush this year and give us a call now at (262) 752-2020 to set up your child's eye exams with the greatest choice in appointment times.
